METRO STORMWATER GEODATA STANDARD

Metro GIS Coordinating Committee
Goals

Water Quality

Water Quantity

Ecological Integrity

Thriving Communities
Guiding Philosophy

“Rather than viewing the natural and built environments as a clash of opposing forces, we see the interrelated and interdependent character of modern life; communities cannot thrive without healthy natural areas, and healthy natural areas become irrelevant without the interplay of human activity. This is the setting in which we live.

- MCWD’s Balanced Urban Ecology policy
Data-Driven
